

Source of Power

KALA BIOTECH

KALA Group

KALA Genset

A Genset Manufacturer with Vast Experience and ultramodern product range that meets every specification and need of Customers With a wide Variety of Genset, Acoustic Canopies & Instrumentation Equipments, Kala Genset is all set to Conquer Global Markets

KALA Telecom

- Network Planning
- RF Survey
- Drive Test
- Installation and Commissioning of BTS equipments
- Total Service Provider
- Manufacturer of Shelter & Power
- Management Systems
- CAMC of Active Telecom Infrastructure
- CAMC of Passive Telecom Infrastructure

Infrastructure

KALA's spirit of innovation reflects in its wide range of Quality Products and meets every specification and need of customers.

Web Based Monitoring system Available 24x7 for Customer services.

KALA has in house state of the art CAD-CAM Design centre with Pro E 3D Software to ensure Innovative and Customized solutions Equipped with Laser Cutting Machines, Turret Punch Presses and CNC Sheet Bending Equipments

KALA's manufacturing facilities also houses 12 Tank, PLC based Automatic Pre Treatment Plant & Conveyorised Robotic Powder Coating Plant.

A well planned Shot Blasting facility followed by combined Liquid Paint and Powder Line for Heavy duty, Odd size material and Customized products.

KALA Group

KALA International LLC-Oman

- Turnkey Solution For Power & Telecom Sectors
- Design Efficiently and Construct (EPC) Solar & Wind Power Plants
- Expertise in Design, Electrical & mechanical Engineering
- Strong Project Management and Execution Teams
- Focus on Quality, Cost and Deliverable (QCD) and Value Engineering
- Operation and Maintenance of Renewable Energy Generations

KALA Biotech

Ultra Modern Hi-Tech Biotech Lab specialized in Research, Development & Production Related to

Plant Tissue Culture

- Ornamental Plants
- Flowering Plants
- Horticulture Plants
- Forest Plants

Bio Fertilizers and Bio Pesticides

Cold Storage, Ripening Chambers, Clean Rooms.

Services

- Genetics
- Virology Testing
- Microbiology Testing
- Environmental Testing
- Soil Testing

Control Panels

- MCC Panel
- PCC Panel
- Grid Synchronizing
- PLC Panels
- Mimic Display Panels
- Distribution Panels
- LT/HT Panels

Power Management Systems

- Uninterrupted Transient Free Power Supply
- Minimum Down Time
- Remote Operations & Monitoring of Telecom Sites
- High/Low Voltage Protection with Constant Output Voltage
- Maximum Mains Availability
- User Friendly by providing Mimic & LCD Display
- Remote Alarm Extension to minimize Downtime
- Remote monitoring of Telecom site through GSM Modem
- Data Logging & Data Transfer Facility
- Protection from Surges and Lightning
- Complete Monitoring of D.G. Sets, Mains Supply, Air Conditioners, Room, Temperature, Battery Health, Fire & Spoke Alarm, Aviation Lights etc.

BTS Shelter

- Standard Sandwich Insulated Panels
- PU foam as filler material between Galvanized Pre coated steel sheets
- Structurally stable and self supported design
- Low thermal conductivity for maximum power saving
- Easy to assemble and movable at site.

Agro Products

Best in Class PUF Insulated Rooms

KALA is having last 25 year experience in the manufacturing and building of PUF Panel Rooms. These rooms are built for critical applications like **Telecom, Defense, Cold Storage Rooms and Ripening Chambers etc.**

•KALA has expertise in Custom built designs to suit Customer needs and having an ISO 9001-2008 Certification for Quality Management System.

•The above products are working in all Climatic conditions like Desert, Sea shore, Mountain & City areas.

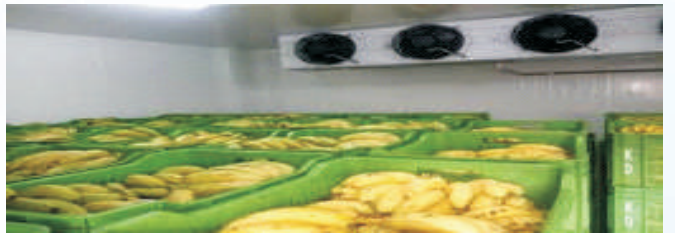

KALA has in house Manufacturing Facilities for:

- 1.PUF Sandwich Panels
- 2.Diesel Generators
- 3.PLC based Control Panels & Power Management Systems

KALA is tied up with Branded Refrigeration/ Ripening Manufacturers for the supply quality products to their Customers.

PUF Panel Product Specifications:-

1. High Pressure Injection Moulded PUF Panels with Tongue and Groove Arrangement for Best Performance
2. Panel Finish – PDGI, PPGL, SS, SLAB
3. PUF Density – 40kg/m³
4. Thermal Conductivity – 0.022w/m²°k
5. Closed Cell – 90 to 95%
6. Operating Temperature – 30 °C to + 80° C
7. Fire Resistance – Class 'B'
8. Colour – RAL 9002 or 9003
9. These Panels are available in the 60mm / 80mm / 100mm /120mm /150mm /200mm Thicknesses

Ripening System			
Parameters	Semi Automatic	Automatic Version I	Automatic Ripening Management System
